

Sudbury Clean Water Initiative 2023

HAVE YOUR SAY

This joint initiative between **Sudbury Town Council** and the **River Stour Trust** aims to gain Designated Bathing Water status for the River Stour between the Granary Cut in Sudbury and the Great Cornard Lock. If this is granted, the Environment Agency will be required to monitor and protect this stretch of river and the local authority will need to display information about pollution levels during the bathing season.

We would love your feedback - so please tell us do you support plans for designated Bathing Water Status for the River Stour?
